

PAINT PROTECTION FILMS

KPMF CLEAR GLOSS TPU - PPF

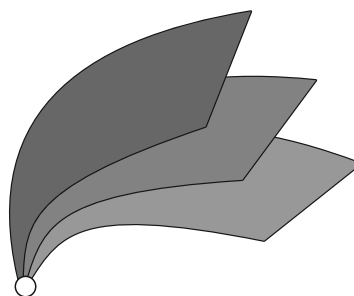

Premium quality extruded 137µm aliphatic polyurethane film with excellent clarity. Developed for use in the automotive and other industries requiring a self adhesive material to reduce corrosion, stone chipping and scratching. Very conformable and easy to install, is suitable for use on smooth and contoured surfaces, with a high tack adhesive and anti-static matt backed polyester liner.

Stoneguard PPF

CONSTRUCTION

Wrap with Confidence!

1. Premium aliphatic TPU - 150 µm
2. Ultra clear acrylic PS adhesive - 37 µm
3. Release liner - 75 µm

KEY BENEFITS

Excellent durability TPU film

High optical clarity

No yellowing, UV resistant

Strong adhesive system, easy installation
